

# Cornwall Dyslexia Association Workshop Sessions for Schools

The CDA has over fifteen years of experience working with dyslexics and supporting them and their families. In response to many inquiries for help and advice we've put together a series of training sessions for schools.

The CDA is able to offer a variety of training sessions for schools and colleges delivered by experienced CDA trainers. Sessions can be adapted to suit a variety of needs for example: Dyslexia Awareness (an opportunity to acquire knowledge and understanding of dyslexia and the ways in which it manifests itself); Improving Communication with Parents; Dyslexia From a Dyslexics Point of View etc.

Sessions are normally two hours long, but we can adapt to fit particular needs.

Cost in the region of £100- £140 depending on precise requirements.
