

Cornwall Dyslexia Association Workshop Sessions for Schools

The CDA has over 20 years of experience working with dyslexics and supporting them and their families. In response to many inquiries for help and advice we've put together a series of training sessions for schools.

The CDA is able to offer a variety of training sessions for schools and colleges delivered by experienced CDA trainers. Sessions can be adapted to suit a variety of needs for example: Dyslexia Awareness (an opportunity to acquire knowledge and understanding of dyslexia and the ways in which it manifests itself); Listening to Parents and developing the 'Structured Conversation' ; Raising Attainment by Working in Partnership with Parents; Dyslexia from a Dyslexic's Point of View etc.

Sessions are normally two hours long, but we can adapt to fit particular needs.

Cost vary depending on precise requirements, but our day rate is £500 but we can be adaptable on cost for shorter sessions.
